TTW Add-ons for Bookmap: READ.ME - January 2024

This README is intended to guide you on how to seamlessly install the TTW add-ons for Bookmap.

Follow the instructions provided below:

Downloading TTW Add-ons

You can download the latest versions and releases of the TTW add-ons from either of these two sources:

- [TTWtrader Downloads](#)
- [TTWtrader Members Area](#)

Installation Instructions

1. **Unzip the downloaded binary file**. The **trading-to-win.jar** file contains three add-ons:

   - **TTW-TrendAnalyzer (NON-PRO)**: This add-on is available on Bookmap Marketplace. Its licensing is managed by Bookmap. For any queries, reach out to support@bookmap.com.
   - **TTW-TradeFinder**: This add-on requires a TTW license.
   - **TTW-TrendAnalyzer PRO**: This add-on also needs a TTW license.

2. **Copy and replace** the unzipped file into a subfolder of Bookmap, e.g., `C:/Bookmap/MyAddOns`. Placing files here ensures they remain in one location and are automatically loaded by Bookmap at startup.

3. If you had previously installed any add-ons, we recommend **removing** them using the REMOVE button found in the Configure AddOns window. After removing the older versions, you can then add the new versions.

4. It's recommended to **restart Bookmap** after the installation process.

5. Please see: ***https://ttwtrader.com/docs/installing-ttw-tradefinder-for-bookmap/***

For a detailed guide on the installation process, check out the instructions: ***https://ttwtrader.com/ttw-wiki/***

For any bugs or issues encountered during the process, please report them at support@ttwtrader.com.
